PATRON

Her Excellency the Right Honourable Julie Payette, C.C., C.M.M., C.O.M., C.Q.,

CODE OF CONDUCT AND ETHICS OF EQUESTRIAN CANADA

~~“We look to sport to impart something of moral and social values and, in integrating us as individuals, to bring about a healthy, integrated society.”
The Honourable Chief Justice Charles L. Dubin~~

1. ~~Preamble~~

~~Equestrian Canada (“EC”) believes that:~~

- ~~• Equestrian pursuits are based on a relationship between Horse and human.~~
- ~~• It is the right and responsibility of EC to set standards in matters of ethics, conduct, sportsmanship, the welfare of the Horse, and in all matters under its jurisdiction.~~
- ~~• It is desirable to define ethical practices, to delineate unethical practices, to encourage good sportsmanship, fair play, safety and high ethical behavior and to warn, censure or bring to public attention and discipline those who commit acts detrimental to the best interests of its stakeholders.~~
- ~~• All Persons should observe the spirit as well as the letter of this Code of Conduct and Ethics policy.~~
- ~~• Membership and participation in its activities brings with it many benefits and privileges that are balanced by the Person’s responsibilities and obligations. This policy defines the parameters for these responsibilities and obligations, and thus identifies a standard of behaviour that is expected of all Persons.~~

2. ~~Purpose~~

~~The purpose of this Code of Conduct and Ethics policy is to promote a safe and positive environment within EC programs, activities and events, by making all Persons aware that there is an expectation at all times of appropriate behaviour, consistent with EC values.~~

~~Conduct that violates the Code of Conduct and Ethics policy may be subject, after due process, to sanctions pursuant to EC’s disciplinary and complaints policies.~~

3. Application and Scope

This policy applies to a Person's conduct during the course of EC business, activities and events, including but not limited to: work environment, competitions, training and education sessions, travel and meetings.

This policy also applies to conduct that occurs outside of EC's activities and events when such conduct could adversely affect relationships within EC's work and sport environment and/or could be detrimental to the image and reputation of EC.

All members of other National and Provincial/Territorial Sport Organizations must agree to be bound by the rules of EC while participating at EC sanctioned competitions or events.

The Statement of Principles below is to be considered an interpretive guide in applying the Code of Conduct and Ethics policy.

4. Definitions

Throughout this policy, capitalized terms are defined as follows:

- a) "EC" means Equestrian Canada Equestre;

~~The standard by which conduct or treatment will be measured is that which a person who is informed and experienced in generally accepted equine training and competition procedures would determine to be neither cruel, abusive, nor inhumane.~~

6. ~~Responsibilities~~

~~EC is committed to providing a safe environment in which all Persons are treated with respect. Persons involved with EC must acknowledge and accept that at all times the welfare of the Horse must be paramount and must never be subordinate to competitive or commercial influences.~~

~~Every athlete and other person participating in the sport shall reasonably cooperate with the Canadian Centre for Ethics in Sport (CCES) or another anti-doping organization investigating anti-doping rule violations and a failure to do so may be the basis for disciplinary action within the sport.~~

THE EQUESTRIAN CANADA RULEBOOK

Knowledge of the rules of any sport is required of each participant, and the Competitor at an EC-sanctioned competition must accept this responsibility. Both a complete knowledge of and compliance with the rules are essential, and all participants must be fully cognizant of all rules as well as particular class specifications in the discipline/breed sport in which they compete.

It is not possible to provide for every conceivable eventuality in these rules. If there is no rule to deal specifically with a particular circumstance, or if the nearest interpretation of the pertinent rule would result in an obvious injustice, it is the duty of those responsible to make a decision based on common sense and fair play, thus reflecting as closely as possible the intention of the rules and regulations of Equestrian Canada.

Organization of the Rulebook

The EC Rulebook is divided into multiple sections, grouped by disciplines and breed sports. Section A covers general regulations that apply to all EC members, Competitors, officials, owners, equines, organizers and persons responsible unless superseded in other sections of the Rulebook.

Evergreen Rules Process

The Equestrian Canada rulebooks are updated annually, effective January 1st. The official rulebook will be as published on the EC website and may be amended as follows.

Amendment of the Rules

It is the right of every sport licence holder of Equestrian Canada to propose amendments to the rules, subject to the current policies, procedures and schedules. The deadline for Rule Change Suggestions (RCS) shall be May 31 each year in accordance with the procedures outlined on the EC Rule Change page. Suggestions will be reviewed by the appropriate discipline/breed sport EC committees who will consider all suggestions and put forward those they recommend as Rule Change Proposals (RCPs). RCPs will be posted on the EC website to allow for a 30-day review period. The EC committees will consider all comments and make any necessary revisions. Rule changes will be posted on the EC website in December to be effective January 1 the following year.

The amendment process will be strictly followed. Extraordinary rule amendments will be permitted only for FEI rule changes, safety, monetary, clarification, ethical and equine welfare reasons at the discretion of the National Rules Committee using the following protocol. Extraordinary rule amendments will be effective when published by EC on its official website. FEI Rules, applicable to EC-sanctioned competitions, are effective upon publication by the FEI.

Amendment Process

1. **Proposal** – An Extraordinary Rule Amendment (ERA) is composed by the EC discipline/breed committee, EC staff or National Rules Committee (NRC) with supporting rationale.
2. **Authorization** – The applicable discipline or breed committee must authorize each ERA, note it in their minutes and forward it to the NRC.
3. **Approval** – The NRC is responsible for confirming the ERA criteria (FEI rule change, safety, monetary, clarification, ethical or equine welfare) have been satisfied
4. **Posting** – EC will translate and post the amendment and show changes to both change visible and clean copy online Rulebooks. The amendments display the date of the NRC approval for consistency.
5. **Effective** – An ERA is effective when published on the EC website. The file reference shall retain the original approval date.

Interpretation of the Rules

Please read all cross-references carefully and refer to the EC website for rule changes and/or clarifications. Should the English and French versions differ, the English version shall prevail. In the case of conflict between General Regulations and the regulations of the disciplines/breed sports, the discipline/breed sport rules will prevail.

- The freedom and regularity of the paces
- The harmony, lightness and ease of the movements
- The lightness of the forehand and the engagement of the hind quarters originating in lively impulsion
- The acceptance of the bridle, with submissiveness throughout and without any tenseness or resistance

- 1.2 The rules governing the Dressage Test shall be as laid down in the FEI "Rules for Dressage" except where specifically modified in the following respects. For definition of "lengthened stride" and Dressage Test requirements, see Rules of Equestrian Canada, Section E Dressage.

2. **Nature of the Test.** The Nature of the test will be determined by the level of the event and will therefore be related to the quality and standard of preparation of the competition and Horses. Official Tests will be chosen by the Equestrian Canada Eventing Committee. Official tests are published annually in the EC Eventing Omnibus.

ARTICLE D304 RULES GOVERNING THE DRESSAGE TEST

1. **Commanded Tests:** All tests at the Intermediate level and above and all National and Provincial Championship Tests must be ridden from memory.
2. **A Competitor who fails to enter the arena** within 45 seconds of the starting signal but within 90 seconds or who enters the arena before the starting signal has been given will be penalized for an error of test. Competitors who do not enter the arena within 90 seconds will be eliminated, unless the judge at C has been given a valid reason (such as the Horse losing a shoe).
3. **Salute:** Riders must take reins in one hand at the salute. A lady rider shall let one arm drop loosely along her body and then incline her head in a slight bow. A Gentleman rider shall remove his hat and let his arm drop loosely along his body. Riders with safety harness are not required to remove their hat and may render the salute as does the lady rider. The military salute is only permissible when riding in a uniform.
4. **Lameness:** In a case of marked lameness, the President of the Jury or Judge informs the Competitor that he is eliminated. There is no appeal against this decision.
5. **In a movement** which must be carried out at a certain point of the arena, it should be done at the moment when the competitor's body is above this point.
6. **Leaving Arena:** A Horse leaving the arena completely with all four feet during a dressage competition between time of entry and the end of the test will be eliminated.
7. **Resistance:** Any resistance that prevents the continuation of the test longer than 20 seconds will be punished by elimination
8. **A test begins** with the entry at A and ends after the salute at the end of the test, as soon as the Horse moves forward. Any incidents before the beginning or after the end of the test have no effect on the marks. The competitor should leave the arena in the way that is prescribed in the text of the test.

9. **Outside Intervention:** Any outside intervention by voice, signs etc. (except where the test may be commanded) is considered as assistance to a rider or to the Horse. A rider or Horse receiving such assistance must be eliminated.
10. **Time:** The execution of the test is not timed. The time shown is for information only.
11. **All trots** are to be executed "sitting" unless otherwise indicated in the test. At a transition from a rising trot to a canter, walk or halt the last few steps of the trot may be executed sitting.
12. **Use of Voice:** The use of the voice in any way whatsoever or clicking the tongue once or repeatedly, is a serious fault involving the deduction of at least 2 marks from those that would have been otherwise awarded for the movement where this occurs. The use of the voice will incur deduction of marks each time it is used but does not count towards elimination. For example, a Judge awarding 8 to a movement must deduct 2 or more points from the given mark (example: 8 becomes 6 comment: voice).
13. **Error of Course:** When a Competitor makes an error of Course, (takes the wrong turn, omits a movement etc.) the Judge (or President of the Ground Jury) warns the Competitor by sounding the bell. The Judge shows the Competitor, if necessary, the point at which he must take up the test again and the next movement to be executed then leaves him to continue by himself. However, in some cases, when the Competitor makes an Error of Course the sounding of the bell would unnecessarily impede the fluency of the performance – for instance if a Competitor makes a transition at V instead of K – it is up to the Judge to decide whether or not to sound the bell.
14. **Error of Test:** When a Competitor makes an Error of Test he will be penalized with 2 penalty points for each occurrence.
- Entering the arena before the start signal is given
 - Entering the arena between 45 and 90 seconds of the start signal
 - Not taking the reins in one hand during salute
 - Doing a rising trot when a sitting is specified or vice versa
15. **Repetition of a Movement following an Error:** In principle, a Competitor is not allowed to repeat a movement of the test unless the Judge decides on an error of course and sounds the bell. If, however, the rider has started the execution of a movement and tries to do the same movement again, the judge(s) must consider the first movement only and at the same time penalize for an error of course. If the bell is not rung and the same error occurs again because the same movement is repeated in the test, only one Error of Course is recorded. The decision as to whether or not an error of course or test has been made will be that of the judge at C. The other judges' scores will be adapted accordingly.

ARTICLE D305 DRESSAGE ARENA

1. Size.

- **SMALL ARENA:** The 20 m by 40 m dressage arena must be used when indicated in the directives on a specific official dressage test
- **STANDARD ARENA:** The 20 m by 60 m dressage arena must be used when indicated in the directives on a specific official dressage test.

When the directives on a specific official dressage test offer the test in either the small or standard arena, the choice of which arena to be used is that of the Organizing Committee.

2. **Construction:** The enclosure should consist of a low fence about 0.30 m high. At Horse Trials, the arena may be either totally or partially enclosed.

3. **Letter Placement:** The letters outside the enclosure should be placed about 0.50 m from the fence. It is desirable to place a special marker on the fence itself, level with and in addition to the letter.
4. **Judges' Placement:** The President's box should be placed on the prolongation of the center line, (C) the other (M or H) 2.50 metres from and on the inside of the prolongation of the long sides and should be a minimum of 3 meters and maximum of 5 meters from the arena. The third judge will be at either E or B, outside and 5 -10 metres from the arena. The three positions shall be either C, H, B or C, M, E as determined by the Technical Delegate.
If only two judges are used, they will be positioned at C and either B or E as determined by the Technical Delegate. If only one judge is used he/she will be positioned on the prolongation of the center line (C). A separate hut/area shall be provided for each judge. They must be raised not less than 50 cm above the ground in order to give the judges a good view of the arena.

ARTICLE D306 DRESSAGE SCORING

1. **Marking:** Judges will award good marks from 0 to 10 for each numbered movement and for each of the collective marks. The scale of marks is as follows:

10	Excellent	4	Insufficient
9	Very Good	3	Fairly Bad
8	Good	2	Bad
7	Fairly Good	1	Very bad
6	Satisfactory	0	Not executed
5	Sufficient		

All Half marks from 0.5-9.5 may be used both for movements and collective marks, at the discretion of the judge.

2. **Errors:**
 - 2.1 Error of course (Art 304.13) are penalized as follows:
First error by 2 points
Second error by 4 points
Third error results in elimination
 - 2.2 Error of Test: (Art 304.14) each error of test incurs two penalty points, but are not cumulative and therefore do not result in elimination.
3. **Falls:** In the case of a fall of Horse and/or Competitor, the Competitor will be eliminated.
4. **After Elimination:** (except when eliminated for marked lameness or fall), a Competitor may continue his performance to the end. The marks will be awarded in the ordinary way.
See Art D 302.5 for conditions in which eliminated Competitors may continue in subsequent test on an hors concours basis.
5. **Calculation of Scores**
 - 5.1 The good marks from 0 to 10 awarded by each judge to a Competitor for each numbered movement of the Dressage Test together with the collective marks are added together deducting any error of course or test.
 - 5.2 For each judge the percentage of maximum possible good marks obtainable is then calculated. (Percentage is obtained dividing total good marks of the judge (minus any error of course or test) by maximum possible good marks obtainable and then multiplying by 100 and rounding the result to two decimal digits. This value is shown as the individual mark for that judge.

- 5.3 In order to convert average percentage into penalty points, the percentage mark must be subtracted from 100, with the resulting figure being rounded to one decimal digit. The result is the score in penalty points for the test.
- 5.4 Where two or more judges have marked a test, their percentage marks are averaged to two decimal places. This percentage is converted into penalty points in the same way.
- 6. Additional reasons for Elimination:**
- 6.1 ELIMINATION IS LEFT TO THE DISCRETION OF THE GROUND JURY/JUDGE IN THE FOLLOWING CASES:
 - 6.1.1 Receiving unauthorized assistance (Article D304.9).
 - 6.1.2 Performing the Test in incorrect headgear, dress, equipment or saddlery (Article D114.6).
 - 6.1.3 Performing a test with illegal spurs (Article D114.4).
 - 6.1.4 Performing a test with illegal whip (Article D114.3).
- 6.2 ELIMINATION MUST BE APPLIED IN THE FOLLOWING CASES:
 - 6.2.1 Marked lameness (Article D304.4).
 - 6.2.2 Leaving the arena between the time of entry and the time of exit at A (Article D304.6).
 - 6.2.3 Resistance (Article D304.7).
 - 6.2.4 Fall of Competitor and/or Horse (Art D306.3)

ARTICLE D307 CROSS-COUNTRY TEST

1. **The Cross Country Test** constitutes the most exciting and challenging all-round test of riding ability and Horsemanship where correct principles of training and riding are rewarded. This test focuses on the ability of athletes and Horses to adapt to different and variable conditions of the competition (weather, terrain, obstacles, footing, etc.) demonstrating jumping skills, harmony, mutual confidence, and the Competitors knowledge of pace and the use of his Horse Cross Country.
2. It consists of a cross country course with obstacles normally carried out at the gallop.

ARTICLE D308 RULES GOVERNING THE CROSS-COUNTRY TEST

1. **Starting.**
- 1.1 **THE STARTER.** Competitors at the start of the Cross Country must be under the control of the starter and may not deliberately start until instructed to do so under penalty of elimination at the discretion of the Ground Jury. The Horse does not have to stand absolutely immobile, but the Competitor must not get any advantage from a flying start. Each Competitor should be given reasonable warning before the time that he is due to start, but it is the Competitor's responsibility to ensure that he/she is ready to start at the correct time. Unless otherwise instructed, all Competitors should be started at their exact published start time.
- 1.2 **START BOX.** In order to simplify the task of the starter, an enclosure 5 by 5 meters will be built at the start of Cross Country with an open front through which Horses will start and a gap (measuring a minimum of 1.5 metres) in one or both sides through which the Horses will enter. Each Competitor must start from within the enclosure and is at liberty to move around and through the enclosure as he pleases. An attendant may lead the Horse into the enclosure and may hold the Horse until the signal to start is given. From that instant, the

Competitor is considered to be on course and no further assistance may be given (see Article D308.8).

1.3 LATE FOR START.

If for any reason a Competitor is not ready to start at his correct time, he may be allowed, at the discretion of the starter or at the instruction of the Technical Delegate and/or Ground Jury, to start when he is ready, subject to the following conditions:

- A late Competitor will not be permitted to start if he is likely to interfere with the subsequent Competitor
- If the Competitor is late due to a circumstance not under his control (e.g. lost shoe, rider fall) he may be allowed to restart if he can be slotted into the schedule safely and only if his division is still underway
- In the above situation, his start time will be recorded as the time he crosses the start line.
- In these cases, his starting time will be recorded as if the Competitor had started at the correct time.

1.4 INADVERTENTLY ANTICIPATING THE START. If a Competitor inadvertently starts early, his time will be recorded from the moment he crossed the start line. No Competitor may deliberately start before being given the signal and could be eliminated at the discretion of the Ground Jury.

2. Time.

2.1 OPTIMUM TIME. The distance chosen carried out at the chosen speed gives the Optimum Time. Completing Cross Country in less than the optimum time is not rewarded. A Competitor exceeding the optimum time up to the time limit or excessive speed is penalized in accordance with Article D311.2

2.2 SPEED FAULT TIME: For Entry through Preliminary Training, the distance divided by the speed fault speed gives the speed fault time. Completing the course in less than the optimum time is not penalized up to the speed fault time. Completing the course in less than the speed fault time will be penalized in accordance with Art D 311.2.3. The speed used to determine the speed fault speed is the maximum permitted speed allowed for the next level. (eg. For PT- the speed fault speed would be the maximum speed permitted for the Training division)

2.3 TIME LIMIT.

The time limit is twice the optimum time.

2.4 TIME KEEPING.

Timekeepers are required at the beginning and end of Cross Country and at Stopping Points if used.

2.5 Timing should be by synchronized chronometers (accurate time of day stop watches) each Competitor's time of starting and finishing being accurately noted and recorded by properly qualified personnel. Two chronometers must be used at the start and finish of Cross Country. As an alternative, where chronometers are not available, normal stop watches can be used. Competitor

2.6 Time is counted from the instant the starter gives the signal to start or when the chest of the Horse crosses the start line, whichever happens first, to the moment when the Horse's chest crosses the finishing line.

2.7 Time is counted in whole seconds, fractions of seconds being rounded up to the next higher second.

2.8 TIMING OF THE CROSS-COUNTRY. If a Competitor is stopped on any of the phases by an official, e.g. for a broken fence, accident, being overtaken, for medical or veterinary examination, etc., the time during which he is prevented

from continuing until he is cleared to start will be recorded and deducted from the total time taken to complete the Cross Country course.

- 2.9 For educational purposes, organizers are encouraged to include each Competitor's elapsed time and average speed when posting cross-country time penalties.

3. **Errors of Course.** All compulsory passages on Cross Country and all obstacles, including all elements and/or options, must be passed or jumped in order under penalty of elimination. All red or white flags must be respected wherever they occur on all courses, except as provided in Article D310.2.2, under penalty of elimination, at the discretion of the Ground Jury. Retaking an obstacle already jumped is forbidden, under penalty of elimination except as provided for in Article D310.2.1

Larking - (the unnecessary jumping of fences that do not form part of a Competitor's course) is prohibited under penalty of elimination at the discretion of the Ground Jury. However the Ground Jury may permit a Competitor (once only) who has mistakenly jumped a fence from another course to continue as long as he/she subsequently jumps the correct fence before jumping the next obstacle. It is permissible to jump a fence of a lower level, in the correct direction only if it offers a better line to the next obstacle.

4. **Pace & Dismounting.**

Competitor Horse Between the start and finish of Cross Country Competitors are free to choose their own pace. Dismounting as a result of attempting an obstacle is penalised by elimination in accordance with Art. 311.1.2. Competitors may voluntarily dismount without incurring elimination to check on Horse, adjust saddlery or equipment.

5. **Overtaking.**

- 5.1 Any Competitor who is about to be overtaken by a following Competitor must quickly clear the way. Any Competitor overtaking another Competitor must do so only at a safe and suitable place.

- 5.2 When the leading Competitor is before an obstacle and about to be overtaken, he/she must follow the directions of the Officials. When the leading Competitor is committed to jumping an obstacle, the following Competitor may jump that obstacle only in such a way that will cause no inconvenience or danger for either.

- 5.3 The penalty for willful obstruction of an overtaking Competitor, failure to follow the instructions of the Officials, or causing danger to another Competitor is penalized at the discretion of the Ground Jury according to Article D113

- 5.4 The time that the Competitor is held by the officials will be recorded and deducted from the total time taken by the Competitor to complete the course.

6. **Competitors in difficulty.**

- 6.1 If, in attempting to negotiate an obstacle, a Horse should be trapped in such a way that it is unable to proceed without assistance, or is liable to injure itself, the Competitor will be instructed by the fence judge to dismount and will be eliminated.

- 6.2 The fence judge will decide if parts of the obstacle need to be dismantled or if any assistance needs to be given to extricate the Horse.

7. **Stopping Competitors.**

- 7.1 If an obstacle is obstructed by a Competitor in difficulty, or if an obstacle has been dismantled to release a fallen Horse or if an obstacle has been broken and

is not yet rebuilt, or in any similar circumstances, subsequent Competitors must be halted.

- 7.2 In such a case, an official should be posted in the path of an oncoming Competitor. He shall wave a red flag or other suitable material that indicates that the Competitor must stop. Failure to stop is penalized by elimination at the discretion of the Ground Jury.
- 7.3 Competitors may be stopped at obstacles or at Stopping Points on the course.
- 7.4 The Official will stop Competitors only upon the instruction of the Control Center or during an emergency at his own obstacle.
- 7.5 The time during which the Competitor was stopped, from the moment he passed the Stopping Point until he re-passed that same Point after being given the order to restart, will be recorded by the Official. It will be deducted from the total time taken by the Competitor to complete the course. It is clearly intended that the time shall be taken as the Competitor gallops past the Stopping Point not after he halts nor after a start from a halt.

8. Unauthorized Assistance.

- 8.1 Outside assistance is forbidden under penalty of elimination. Any intervention by a third party, whether solicited or not, with the object of facilitating the task of the rider or of helping the Horse is considered illegal assistance.
- 8.2 In particular, the following are forbidden:
 - Intentionally to join another Competitor and to continue the course in company with him.
 - To be followed, preceded or accompanied, on any part of the course, by any vehicle, bicycle, pedestrian or Horseman not in the competition.
 - To post friends at certain points to call directions or time information or make signals in passing.
 - To have someone at an obstacle to encourage the Horse by any means whatsoever.
 - To tamper with the obstacles or any part of the course including for instance flags, indicators, markers notices, ropes, trees, branches, wire or fences whether temporary or permanent.
- 8.3 Officials or spectators who draw attention of a Competitor to a deviation from the course are giving unauthorized assistance which may result in the elimination of the Competitor. If it is an EC official who provides the unauthorized assistance he/she is liable to be disciplined according to regulations.
- 8.4 In cases of doubt, the Ground Jury decides finally and without appeal.
- 8.5 EXCEPTIONS.
 - 8.5.1 Whip, headgear or spectacles may be handed to a Competitor without dismounting.
 - 8.5.2 At the start of Cross-Country, it is permitted to assist the Competitor and to attend to his Horse (groom, water, etc.).
 - 8.5.3 A Competitor may receive clarification of jumping penalties from the Fence Judge e.g. after having knocked down a flag of a corner of obstacle.

9. After Elimination/Retirement/Disqualification.

A Competitor who retires or has been eliminated on course or a Competitor who has been disqualified as per Article D116 will NOT be permitted to continue and must leave the course. Competitors must take every precaution to avoid disturbing other Competitors. When Competitors are leaving the course

they must do so at a walk, either dismounted or mounted. If mounted, Competitors may not jump any further obstacles.
No objection to this decision will be permitted. Failure to comply with this regulation may result in penalties as per Art D113 and Annex 8
See Art D 302.5 for conditions in which eliminated Competitors may continue in subsequent test on an hors concours basis.

ARTICLE D309 CROSS-COUNTRY COURSES

1. Marking of the course.

- 1.1 RED AND WHITE BOUNDARY FLAGS. These shall be used to mark the starting and finishing lines, to mark compulsory passages, and to mark the extremities of the obstacles to be jumped. These flags, which must be secured to appropriate flag poles are placed in such a way that the Competitor must leave a red flag on his right and a white flag on his left. They must be passed mounted.
- 1.2 DIRECTIONAL MARKERS. Yellow direction flags or signs, which should be super-imposed with the letter of the division where necessary, are used to show the general direction to be taken and to help the Competitor to find his way. Passing close to them is not obligatory.
- 1.3 NUMBERS & LETTERS. Each compulsory passage on Cross Country shall be marked with the relevant division and numbered consecutively. Each obstacle on Cross Country shall be numbered. Obstacles with elements or options (see Article D310.2) shall, in addition, be lettered (A, B, C, etc.). The colours of the numbers used should be as follows:
 - Advanced – white number, blue background
 - Intermediate – white number, red background
 - Preliminary – white number, green background
 - EV105 – orange number, blue background
 - Training – white number, black background
 - Pre-Training – black number, white background
 - Entry - black number, yellow background or as designated by the organizer and printed on the course map.
- 1.4 START AND FINISH. The start and finish of each phase must be clearly and distinctively marked by signposts and by red and white boundary flags.
- 1.5 SAFETY FLAGS. Use of safety flags mandatory for the following types of fences:
 - Corners;
 - Fences of less than 3m jumpable width;
 - Related fences which, because of their design offer a jumpable line of less than 3m width;
 - Fences designed to be jumped on an angle where knocking a flag is a possibility;If safety flags are used, the flags and poles on these fences must meet the following criteria:
 - The flag poles must be made of a material that cannot shatter, break or splinter, such as suitable plastic or carbon fiber
 - There must be no points anywhere on the flag poles and any sharp corners and/or edges on the flags must be rounded;

- Flags must be secured in such a way that they “break away” and/or move away from the fence if/when struck by either Horse or rider in such a way that the chance of Horse and/or rider being injured is significantly reduced.
 - All flags and flagpoles to be used in these situations will need to be approved by Technical Delegate.
2. **Two or More Levels on Same Course.** In cases where courses for two or more levels of competition are marked at the same time, only those markings that form part of the course for the competition of the rider in question are considered officially marked. Refer also to Article D308 .3 regarding the definition of and penalties for Larking)
 3. **Distances and Speeds.**
 - 3.1 The distances for Cross Country should not be more than 500 meters shorter than those set out but may be somewhat longer (up to 10%) to suit local conditions. The given speeds are to be used in all but exceptional circumstances and may be altered only with the approval of the Technical Delegate.
 - 3.2 For the recommended speeds and distances for Horse Trials see Annex 6.
 4. **Starting and Finishing lines.**
 - 4.1 For directions on Start Box dimensions and starting procedures see Art D 308.1.
 - 4.2 The last obstacle on the Cross Country course shall be not less than 30 meters nor more than 75 meters from the finishing line
 5. **Course Plans.**

Each Competitor will be given in advance a plan showing the track of the courses.

The plan must include the following:

 - The position of the start and finish
 - The number of obstacles and compulsory passages
 - The distance (metres) and speed (metres per minute)
 - The optimum time and time limit.

ARTICLE D310 CROSS-COUNTRY OBSTACLES

1. **Definition.** An obstacle is considered as such if and only if its extremities are marked with a red and white flag or flags and it is numbered. All significant jumping efforts that the average Horse may be expected to attempt to negotiate must be defined as an obstacle or element and flagged, numbered and/or lettered accordingly.
2. **Obstacles with Elements or Options.**
 - 2.1 **OBSTACLES COMPOSED OF SEVERAL ELEMENTS.** If two or more jumping efforts sited closely together are designed as one integral test, they will be designated as "elements" of a single numbered obstacle. Each element will be marked with a different letter (A, B, C, etc.) and must be negotiated in the correct order. Where two or more jumping efforts are sited so closely together that after a refusal or run-out it would be unreasonably difficult to attempt to negotiate the second or subsequent effort without retaking one or more earlier efforts, these jumping efforts must be designated as one numbered obstacle and lettered accordingly. (Diagram, Annex 5)
 - 2.2 **OBSTACLES WITH OPTIONS OR ALTERNATIVES.**

Where an obstacle may be jumped in one effort but has options involving two or more efforts, each of these options must be lettered as an element.
 - 2.3 Alternative obstacles or elements may be flagged separately and must be identified by the same number/letter as on the direct route. In this case both

sets of flags must be marked with a black line. Such 'black flag' alternatives are to be judged as separate obstacles or elements, only one of which has to be jumped. A Competitor is permitted to change, without penalty, from one black flagged line to another (e.g. jumping 6a left hand route then 6b right hand route) provided he has not presented his Horse at the next element of the original line. (See diagrams Annex 5). In a combination, the Technical Delegate, with the approval of the Ground Jury, may allow Competitors to cross their tracks after a black flag lettered alternative long route, if this improves the flow of the course. This does not change the method of scoring for the Competitor on the direct route through the elements of the obstacle.

- 2.4 These obstacles, if possible, should be designed as the same type as the direct route but not interfere with it. Alternative obstacles must not be sited in such a way as to encourage a quick jump following a refusal. Where possible, alternates should be sited only behind the direct route, in the landing site of obstacles. If this is not practical (where ground slopes away or water involved) the alternative obstacles must be some distance away ensuring sufficient recovery time (about three strides)

- 2.5 Multiple obstacles should be judiciously spread throughout the course.

3. Nature of obstacles.

- 3.1 The obstacles must be fixed, imposing in shape and appearance. When natural obstacles are used they should, if necessary, be reinforced so that they remain in the same state throughout the test. All reasonable precautions must be taken to prevent the possibility of a Competitor being able to pass mounted under an obstacle. Portable obstacles must be secured to the ground in a way that the fence cannot move.

- 3.2 The cross-country obstacles at which a Horse, in falling, is likely to be trapped and to injure itself, must be built in such a way that part of the obstacle can be quickly dismantled and can be quickly rebuilt exactly as before. Such a construction must in no way detract from the solidity of the obstacle. Obstacles constructed of timbers or rails, or those obstacles whose height or width is increased by the use of a rail or a timber should have that or those rails secured by rope.

- 3.3 ~~As of January 1, 2009, it is strongly recommended that all o~~Obstacles at the Preliminary (1.10 meters) Training level and above for which approved frangible technology is *appropriate ~~are shall be~~ constructed using approved Frangible technology or retrofitted using this technology. ~~Obstacles constructed prior to January 1, 2009 for which the use of approved frangible technology is appropriate shall be retrofit using this technology prior to April 1, 2010. Obstacles constructed after January 1, 2009 for which approved frangible technology is appropriate, shall be constructed using this technology.~~ Installation shall be made by persons who are trained and qualified in Frangible Pin Technology

*Appropriate obstacles are obstacles constructed of timbers or rails or those obstacles whose height or width are increased by the use of a rail or timber. (ie verticals, gates, open oxers, open corners that are not planked)

- 3.4 Obstacles with false groundlines are not permitted
- 3.5 In all water crossings the bottom should be firm and consistent.

4. Number of jumping efforts.

- 4.1 Within the limits shown in Annex 6 (for Horse Trials) the total number of jumping efforts on Cross Country shall be related to the length of the course.

- 4.2 To arrive at the number of jumping efforts, the efforts on the route expected to be taken by the average Horse shall be totaled.

5. Dimensions.

- 5.1 The dimensions of obstacles must be within the limits shown in Annex 7 for the relevant level of competition.
- 5.2 The fixed and solid part of an obstacle must not exceed the specified height or spread at any of the points at which a Competitor might reasonably attempt to negotiate the obstacle.
- 5.3 At obstacles involving water crossings (ford, lake, wide river), the depth of the water, from the entrance to a fair distance and from a fair distance to the exit, may not be more than 30 cm. Recommended depth is 10-15 cm. The length of a water crossing must be at least 6m between entry and exit except where an exit step(s) or fence is jumped directly out of the water, in which case the minimum length must be 9 meters.
- 5.4 At obstacles with spread only (dry or water-filled ditch) a guardrail or hedge in front that facilitates jumping is permitted. It may not exceed 50 cm in height and must be included in the measurement of the spread.
- 5.5 All obstacles should be up to height for the level of competition.
- 5.6 The number and depth of drops on the landing side of obstacles must not exceed the specifications defined in Annex 7.

6. Measurement.

- 6.1 The height of an obstacle is measured from the point on the ground where the average Horse would take off and where the average Horse would jump. The spread of an open obstacle (eg: Oxer or Ditch) is measured from the outside of the rails or other material making up the obstacle. The spread of a closed obstacle with a solid top (e.g. Tables) is measured from the highest point to the highest point.
- 6.2 Obstacles of the Cross-Country Test: the maximum height of the fixed and solid part of a hedge or brush fence must not exceed the dimensions specified in the table in Annex 7. The overall height of a hedge or brush fence must never exceed the dimension set in the table in Annex 7. The fence must be constructed so that a Horse clearing the fixed and solid part is unlikely to be injured by the brush or hedge. Bullfinches, i.e. thin brushes or hedges through which a Horse can be expected to jump are permitted provided they can be maintained in consistent condition throughout the test.
- 6.3 When the height of an obstacle cannot be clearly defined (natural hedge or brush fence), the height is measured to the fixed and solid part of the obstacle through which a Horse cannot pass with impunity.
- 6.4 The drop on the landing side of an obstacle is measured from the highest part of the obstacle to the spot where the average Horse would land (See Annex 4).

ARTICLE D311 CROSS-COUNTRY SCORING

- 1. Faults at obstacles.** The following faults at an obstacle are penalized, according to the following table:

1.1 DISOBEDIENCES.

- First refusal, run-out or circle - 20 penalties
 - Second refusal, run-out or circle at the same obstacle plus 40 penalties
 - Third refusal, run-out or circle on Cross Country course - Elimination
 - Activating a frangible device - 11 penalties (Art D 311.1.3)
- At Equestrian Canada competitions in divisions where the maximum fixed height of the obstacle on the Cross Country test is less than or equal to 1.00m

(Training), elimination *is required after the third disobedience at the same obstacle or* after the fourth disobedience on Cross Country.

1.2 FALLS.

Fall of Competitor and/or Horse anywhere on the Cross Country Course (Art D312.4): Elimination & Mandatory Retirement

1.3 FRANGIBLE DEVICE: Each Athlete activating a frangible device will be awarded 11 penalties whenever the activation occurs as expected (i.e activation by significant pressure exerted by Horse on the fence).

In the case of unexpected activation (i.e. activation by an insignificant contact), the Ground Jury will be called to evaluate the possible removal of the penalty.

In evaluating the possible removal of the penalty the Ground Juries are not called to investigate if the Horse would have fallen or not or if the contact was with the front or hind legs, but only if an unexpected activation occurred through a light tap. This is the only case where penalties can be removed.

There will be no Appeal against a decision of the Ground Jury arising from the field of play, where the Decision is based on factual observation of the performance during a competition.

In this case a detailed report explaining the reasons for removing the penalty must be produced by the Course Designer/Technical Delegate and signed by the President of the Ground Jury must be returned to Equestrian Canada

1.4 WILLFUL DELAY. If it has been determined that a Competitor has willfully delayed their progress on course between the last fence and the finish line, the Competitor will be penalized with fifteen(15) penalty points at the discretion of the Ground Jury.

2. Time Faults.

2.1 Exceeding the Optimum Time: zero point four (0.4) penalty point per commenced second

2.2 Exceeding the Time Limit: Elimination

2.3 Time Faults for Excessive Speed on Cross Country.

- ~~Preliminary~~, Training, Pre Training and Entry divisions:

Each commenced second under the Speed Fault Time - 1 penalty point.

3. Additional reasons for elimination.

The following faults are penalized by elimination, in addition to the elimination listed in Articles D311.1.1, D311.1.2. (See also regulations for Disqualification D116).

- Competitor Error of course not rectified
- Omission of obstacle or compulsory passage
- Jumping and Obstacle in the wrong direction
- Retaking an obstacle already jumped
- Jumping an obstacle in the wrong order or passing through a compulsory passage in the wrong order
- Alteration of obstacles
- Failure to pass start and finish flags mounted
- Competitor in difficulty (D 308.6)

4. Elimination is left to the discretion of the Ground Jury in the following cases:

- Jumping, or attempting to jump, an obstacle with incorrect headgear or without headgear or with an unfastened retention harness (Article D114.1.3).
- Willful obstruction of an overtaking Competitor or failure to follow the instructions of the officials while being overtaken

- Failure to stop when signaled
- Unauthorized assistance
- Performing the test with incorrect saddlery, dress, equipment or with illegal whip or spurs (Article D114).

ARTICLE D312 CROSS-COUNTRY DEFINITIONS OF FAULTS

The following faults at obstacles (refusal, run-out, circle or fall) will be penalized unless, in the opinion of the responsible official, they are clearly not connected with the negotiation or attempted negotiation of a numbered obstacle or element.

- 1. Refusal.** At obstacles or elements with height (exceeding 30 cm), a Horse is considered to have refused if it stops in front of the obstacle or element to be jumped. After a refusal, if the Competitor redoubles or changes his efforts without success, or if the Horse is re-presented at the obstacle after stepping back and stops again this is a second refusal and so on.

At all other obstacles or elements (i.e. 30 cm or less in height) a stop followed immediately by a standing jump is not penalized, but if the halt is sustained or in any way prolonged, this constitutes a refusal. The Horse may step sideways but if he steps back even with one foot this is a refusal. If the Horse hesitates but the forward motion is maintained, it is not considered a refusal. After a refusal, if the Competitor redoubles or changes his efforts without success, or if the Horse is re-presented at the obstacle after stepping back and stops again this is a second refusal and so on.

- 2. Run-out. – Missing a Flag -**

- 2.1** A Horse is considered to have run-out if, having been presented at the element or obstacle; it avoids that element or obstacle in such a way that either the head, neck or either shoulder of the Horse fail to pass between the extremities of the element or obstacle as flagged. A Horse will be considered to have cleared the fence when head, neck, and both shoulders of the Horse pass between the extremities of the element or obstacle as flagged.

- 2.2 Change of Intention**

The Competitor is permitted to change his/her mind as to where he/she jumps an obstacle or element at any time, without penalty, including as a result of a mistake at a previous element or obstacle. If, however, the Horse avoids part of the obstacle at which it has been presented, it will be considered to have run-out.

- 2.3 Judging of Bounce obstacles:**

At any obstacle where the distance between elements is 5 metres or less (ie a bounce), when a Horse has negotiated the first element, without penalty, he will be deemed to have been presented at the second element – and similarly if the “bounce” is for example the second, third elements of a combination. Thus if a rider “changes his mind” while negotiating the first element of a “bounce” and, for example then goes the longer route, he will be penalized for a run-out.

- 3. Circle.**

- 3.1 At a single obstacle,** a Horse is considered to have circled if, while attempting to negotiate the obstacle, it crosses its original track before successfully negotiating the obstacle.
- 3.2 At separately numbered obstacles,** a Competitor may circle (cross his tracks) between or around them without penalty provided he has not presented his Horse at the second or subsequent obstacles.
- 3.3 At an obstacle composed of several elements (A,B,C etc.)** a Horse will be penalized if it passes around the back of the subsequent element or circles

(crosses his tracks) between subsequent elements. See diagrams in Annex 5 (see Art D310.2.3 for possible exception at black flagged alternatives)

- 3.4 **Representing after a disobedience:** After being penalized by a refusal, run-out, or circle, a Competitor, in order to make another attempt, is permitted to circle one or more times without penalty until he again presents the Horse at the obstacle. -See also Article D312.5.

4. Fall.

- 4.1 **FALL OF COMPETITOR.** A Competitor is considered to have fallen when he is separated from the Horse in such a way as to necessitate remounting or vaulting into the saddle.

- 4.2 **FALL OF HORSE.** A Horse is considered to have fallen when at the same time; both the shoulder and quarters have touched either the ground or the obstacle and the ground, or when it is trapped in a fence in such a way that it is unable to proceed without assistance or is liable to injure itself.

- 4.3 **MANDATORY RETIREMENT.** A Competitor /Horse that has been eliminated according to conditions set out in Art 311-1.1, 1.2, or 1.3 must immediately retire and leave the course. See Art D 302.5 for conditions by which eliminated Competitors may continue in a subsequent test on an hors concours basis.

5. Obstacles composed of Several Elements/Related Obstacles.

- 5.1 **OBSTACLES COMPOSED OF SEVERAL ELEMENTS.** At an obstacle composed of several elements, a Competitor may refuse, run out and/or circle only twice in all without incurring elimination. If he refuses, runs out or circles at any element, he is permitted to retake any elements already jumped although he is liable to be penalized for any fault even if he has previously jumped an element successfully. If after a refusal, run-out or circle, he wishes to pass through flags in the wrong direction in order to retake an element, he may do so without penalty.

- 5.2 **COMBINATION OF OBSTACLES.** Where two or more obstacles are sited together but are designed as separate problems and numbered accordingly, a Competitor may not, under penalty of elimination, retake any obstacle already jumped.

6. **Instructions to Officials.** Where there is any doubt as to the correct interpretation of the rules of judging any element, obstacle or combination of obstacles, it is recommended that the Technical Delegate, on the advice of the Ground Jury, should approve the instructions to the Officials, providing a rough sketch if necessary. All Competitors will be informed at the briefing (if one is held) and it shall be posted as soon as possible after the Technical Delegate's decision. It should also be posted with the Course Plan.

ARTICLE D313 JUMPING TEST

1. **Object & General Description.** This test is similar to an ordinary show jumping competition, but without any attempt to find a 'winner' of this test on its own. Its main objective is to prove that, ~~after a test of cross-country, the Horses and competitor have retained the suppleness, energy and obedience necessary for them to continue, and that they~~ are well trained in the specialist discipline of show jumping.
2. The nature of the course, its length, the speed demanded and the dimensions of the obstacles depend on the degree of difficulty of the whole competition.

ARTICLE D314 RULES GOVERNING THE JUMPING TEST

1. In any circumstances not specifically covered by these rules, FEI Rules for Jumping Events shall apply.
2. Competitors must immediately enter the arena when their number is called under penalty of elimination at the discretion of the Ground Jury.
3. Unless permission has been given by the Ground Jury, it is forbidden under penalty of elimination for competitors to enter the arena on foot once the competition has started.
4. Competitors must enter and leave the arena mounted except with permission of the Ground Jury/Judge or in the case of an accident during the round. Failure to do so incurs elimination at the discretion of the Ground Jury.
5. A competitor/horse leaving the arena, including prior to starting, without permission of the Ground Jury, will be eliminated.
6. When there is a refusal, run-out or circle in the second or third element of a combination, the competitor must re-take all the jumps in the combination. Failure to do so incurs elimination.
7. Resistance includes: taking more than 45 seconds to jump a single obstacle or the first part of a combination or resistance continuously for 45 seconds during the test.
8. An uncorrected deviation from the course incurs elimination including:
 - not crossing the starting line or the finishing line between the flags
 - omitting an obstacle
 - not jumping the obstacles in the correct order
 - not jumping the obstacles in the direction indicated
 - jumping or attempting to jump an obstacle that does not form part of the course
9. Competitors are forbidden to jump or attempt to jump an obstacle in the arena before starting under penalty of elimination.
10. Any form of unauthorized assistance received by a mounted competitor between the starting signal and crossing the finishing line will be penalized by elimination at the discretion of the Ground Jury.
11. Any help given to a mounted competitor to adjust his/her saddlery during his test is considered unauthorized assistance. To hand a mounted competitor his headgear, whip and/or spectacles during his test is not considered unauthorized assistance.
12. The act of officials or other persons in the arena of warning a competitor of a deviation from the course constitutes unauthorized assistance. In this event, the competitor may be eliminated at the discretion of the Ground Jury and the official or other persons may be subject to sanction at the discretion of the Ground Jury.
13. The bell/whistle (or other sound) is used to communicate to the competitors. The President, a designated member of the Ground Jury or the judge is in charge of the bell and responsible for its use.
 - To give permission to the competitors to enter the arena when the course is ready for their inspection and to signal that the inspection time is over.
 - To give the signal to start and to activate a 45 second countdown. The 45 second countdown sets the time that the competitor can spare before commencing his/her round. The Ground Jury has the right to interrupt the 45-second countdown if unforeseen circumstances occur. Incidents such as, but not limited to, disobediences occurring between the signal to start and up until the moment the Competitor/Horse combination crosses the

starting line in the correct direction, are not penalized. However in the event of a fall, the entry will be eliminated.

- To signal the competitor to stop for any reason or following an unforeseen incident
 - To signal the competitor to continue the round after an interruption
 - To signal the competitor that an obstacle and/or flag knocked down or displaced following a disobedience has been replaced
 - To signal by prolonged and repeated ringing that the competitor has been eliminated
14. If the competitor does not obey the signal to stop during the test, he may be eliminated at the discretion of the Ground Jury except where specifically provided under Article D319.2.2. The competitor continues at his own risk, any penalties will count, and the clock should continue to run.
15. If, after an interruption, the competitor starts and jumps or attempts to jump without waiting for the signal he will be eliminated.

ARTICLE D315 JUMPING COURSE

1. **Arena.** See Annex 6 for recommended arena size, the arena must be enclosed. While a Horse is in the arena during a competition, the entrances and exits must be closed.
2. **Track.** The track of the course will be winding with changes of direction and will include related distances. It will be in accordance with the condition in which a well-trained, fit Horse may be expected to be at this stage of the competition. No acrobatic feat of jumping or of turning will be demanded; nor will a compulsory passage be included.
3. **Speeds and Distances.** Within the limits shown in Annex 6, Course Designers are free to plan a track suitable to the level of the competition. The length of the course must be measured accurately to the nearest meter taking into account, particularly on the turns, of the normal line followed by the Horse. This normal line must pass through the middle of the obstacle.
4. **Marking the Course.**
 - 4.1 Completely red flags and completely white flags must be used to mark the following details of the course. The red flags must always be passed on the right hand side of the Competitor and the white flags on the left hand side.
 - 4.1.1 The start.
 - 4.1.2 The side limits of the obstacles. Flags should be attached to the inside of the wing or standard of the obstacles. They may also stand independently. One red flag and one white flag must be placed at vertical obstacles and at least two red and two white flags to define the limits of spread and ascending obstacles.
 - 4.1.3 The finish.
5. **Start and Finish lines.** The starting line may not be more than 25 m nor less than 6m from the first obstacle. The finishing line may not be less than 15 m nor more than 25 m from the last obstacle. In indoor arenas, the finishing line may not be less than 10 m from the last obstacle.
6. **Plan of the Course.** A plan of the course must show the following: positions of the start and finishing lines, relative positions of the obstacles and numbers, the track to be followed marked by a series of arrows showing direction each obstacle must be jumped, length of course, speed allowed, time allowed and time limit; and any decisions made by the Ground Jury with regard to the

course. The plan of the course for the Jumping Test must be available at least one hour before the start of that test.

7. **Adjustment of Course Length.** Once the competition has started only the Ground Jury may decide that an obvious error has been committed in the calculation of the length of the course. This decision may be made after the third Competitor without fall or disobedience has finished its round. If it is apparent there has been an error the Ground Jury has the option to vary the time allowed. The scores of the Competitors who have ridden to that point will be adjusted accordingly.

ARTICLE D316 JUMPING OBSTACLES

1. **General.** The obstacles should be standard show jumping obstacles. There will be 9-12 in number with 15 efforts maximum depending on the level of the event as per limits shown in Annex 7.
2. **Dimensions:** The dimensions of the obstacles allowed for each division shall not exceed the limits shown in Annex 7. At least one third of the obstacles shall be of maximum dimensions. If it should happen that a maximum has been marginally exceeded as a result of materials used for construction and/or by the positioning on the ground, providing every effort has been made not to exceed the maximum dimensions specified in Annex 6, the obstacle will not be considered as exceeded. A tolerance of 5 cm in height is acceptable, if dictated by the terrain or by the spacing of the cups.
3. **Type of Obstacles.** The obstacles should have a balance of vertical and spread obstacles and shall include at least two doubles or a double and a treble. Exception: For the Entry and Pre Training divisions see Annex 1. Closed and partially closed/open combinations are not permitted. A water jump is not permitted but a water ditch with rails over is allowed. Inclusion of water obstacles is not encouraged. For reasons of safety, loose poles placed on the ground are not permitted as ground lines. Plastic Cups and Pins or FEI approved “safety” breakaway cups of 25 mm must be used for the top rail of the front, centre and back poles of all show jumping obstacles including warm-up obstacles.
Inclusion of banks ramps and mounds is not recommended. Alternative obstacles are permitted. These jumps are to be marked on the course plan with the same number and with the word “Alternative”
- 3.1 **STRAIGHT OBSTACLE.** When an obstacle or part of an obstacle comprises several elements placed one above the other and positioned in the same vertical plane (straight obstacle). Only the fall of the top element is penalized.
- 3.2 **SPREAD OBSTACLE.** When an obstacle which requires only one effort comprises elements which are not positioned in the same vertical plane, the fall of one or several elements only counts as one fault whatever the number and position of the elements which have fallen. Trees, hedges etc. used as filling are not liable for penalties.
- 3.3 **COMBINATION OBSTACLES.**
 - 3.3.1 Double, triple or higher combinations means a collection of two, three or more obstacles with distances between each of 7 m minimum and 12 m maximum and requiring two, three or several successive efforts.
 - 3.3.2 The distance is measured from the base of the obstacle on the landing side to the base of the next obstacle on the take-off side.

- 3.3.3 In combinations, each obstacle of the group must be jumped separately and consecutively. Failure to do so incurs elimination. Faults committed at any obstacle of a combination are penalized separately.
- 3.3.4 Penalties for faults made at each element and during different attempts, are counted separately and added together.

ARTICLE D317 JUMPING SCORING

1. Faults at obstacles.

- Knocking down an obstacle 4 penalties
- First disobedience 4 penalties
- Second disobedience in the whole test Elimination
- First fall of Horse or Competitor Elimination. Exception see Art 314.13 & 320.8.3.

Note: At Equestrian Canada competitions in ~~divisions where the height of the Jumping Test the EV105 division and below does not exceed 1.05 metres,~~ elimination is after the third disobedience. In this case, the penalties are awarded for the second disobedience will be 8.

See Art D 302.5 for conditions in which eliminated Competitors may continue in a subsequent test on an hors concours basis.

2. **Time faults.** Completing the course in less than the time allowed is not rewarded, but exceeding the time allowed is penalized by ~~one~~ 0.4 penalty for each second or part of a second in excess of the time allowed, up to the time limit, which is twice the time allowed. Exceeding the time limit incurs elimination. **Note:** At Equestrian Canada competitions in the EV105 divisions and below, ~~where the height of the Jumping Test does not exceed 1.05 metres, (Training division)~~ exceeding the time allowed is penalized by one quarter of a penalty point for each second or part of a second in excess of the time allowed up to the time limit. Exceeding the time limit incurs elimination.

3. Additional Reasons for Elimination.

- 3.1 Elimination is left to the discretion of the Ground Jury in the following cases:
- 3.1.1 Not entering the arena when the Competitor's number is called (Article D314.2).
 - 3.1.2 Not entering the arena mounted or not leaving the arena mounted (Article D314.3).
 - 3.1.3 Any unauthorized assistance (Articles D314.11).
 - 3.1.4 Not stopping when the bell is rung during the test (Articles D314.14 and D319.2).
 - 3.1.5 Jumping, or attempting to jump an obstacle with incorrect headgear or without headgear or with an unfastened retention harness (Article D114.1).
 - 3.1.6 Performing the test with incorrect saddlery, dress, equipment or with illegal whip or spurs (Article D114).
- 3.2 Elimination must be applied by the Ground Jury in the following cases:
- 3.2.1 Jumping or attempting to jump an obstacle in the arena before the start of the test (Article D314.15).
 - 3.2.2 Starting before the signal is given and jumping the first obstacle of the course (Article D314.15).
 - 3.2.3 A Horse resisting for 45 consecutive seconds during the test (Article D314.7).
 - 3.2.4 Taking more than 45 seconds to jump an obstacle, or the first part of a combination (Article D314.7).

- 3.2.5 Omitting to cross the starting and/or finishing lines between the flags (Article D314.8).
- 3.2.6 Jumping an obstacle that does not form part of the course during the test (Article D314.8).
- 3.2.7 Omitting to jump an obstacle of the course (Article D314.8).
- 3.2.8 Jumping an obstacle in the wrong order (Article D314.8).
- 3.2.9 Jumping an obstacle in the wrong direction (Article D314.8).
- 3.2.10 Jumping or attempting to jump an obstacle after an interruption without waiting for the bell (Article D314.15).
- 3.2.11 Not jumping all the fences of a combination again after a disobedience (Article D314.6).
- 3.2.12 Not crossing the finishing line mounted before leaving the arena (Article D314.4).
- 3.2.13 A loose Horse leaving the arena before the end of the test, including before starting (Article D314.4/D314.5), provided the arena is correctly closed in accordance with the Rules.
- 3.2.14 Accepting, while mounted, any object whatsoever during the Test, except headgear, whip, and/or spectacles (Article D314.11).
- 3.2.15 Error of course not rectified (Article D314.8).
- 3.2.16 Showing an obstacle to the Horse after a refusal and before stepping back to jump it.

ARTICLE D318 TIME

1. **Time of the Round.** The time of the round is the time taken by a Competitor to complete the round, plus any time corrections. It starts at the precise moment the mounted Competitor crosses the start line in the correct direction, providing the starting signal has been given, or if earlier at the moment the 45 seconds countdown after the starting signal expires. It extends to the moment the mounted Competitor crosses the finishing line having jumped the last obstacle. Both these lines must be crossed in the direction indicated on the plan.
2. **Time Allowed.** The length of the course and the speed demanded determine the Time Allowed. The Time Limit is twice the Time Allowed.
3. **Recording Time.** Three watches which can be stopped and restarted without the hand returning to zero must be provided. Two watches are required in case the automatic timing breaks down and one watch to measure the time taken to start after the bell has been rung, disobedience, interruptions, the time taken between two consecutive obstacles and the time-limit for resistance. The President or a member of the Ground Jury must have a stop watch.
4. **Interrupted Time.**
 - 4.1 Judges must take great care that the clock is stopped and restarted in accordance with the conditions for the competition in such a manner that the interrupted time can be subtracted from the total time take for the round.
 - 4.2 While the clock is stopped, the Competitor remains free to move around until the ringing of the bell giving permission to start again. The clock is re-started when the Competitor reaches the place where the clock was stopped. Exception in the case of a disobedience with a knockdown Article D319.1 applies
 - 4.3 The responsibility for starting and stopping the clock rests solely with the Ground Jury (the President or one of the Judges). The timing equipment must be such that this procedure can be followed. The Time Keeper may not be responsible for this function.

- 4.4 Falls and disobediences during interrupted time.
 - 4.4.1 The time of a round is interrupted only under the provisions of Article D319. The clock is not stopped in the event of a deviation from the course, a run-out or a refusal.
 - 4.4.2 Falls of Horse or Competitor during interrupted time are always penalized.
 - 4.4.3 Disobediences are not penalized during interrupted time.
 - 4.4.4 The provisions concerning elimination remain in force during interrupted time.

ARTICLE D319 TIME CORRECTIONS

1. Knock-downs with Disobediences.

- 1.1 If, as a result of a disobedience, a Competitor displaces or knocks down an obstacle or in all cases where the nature of the obstacle is changed by knocking down the flag, the bell is rung and the clock is stopped until the obstacle has been rebuilt. When the obstacle has been rebuilt, the bell is rung to indicate that the course is ready and that the Competitor can continue the round. The Competitor is penalized for a refusal and a time correction of 6 seconds is added to the time taken by the Competitor to complete the round. The clock is re-started at the moment when the Horse leaves the ground at the obstacle where the refusal occurred. If a disobedience with a knock-down occurs at the second or subsequent part of a combination the clock is restarted when the Horse leaves the ground at the first element of the combination

2. Stopping during the Round.

- 2.1 In the event of a Competitor not being able to continue the round for any reason or unforeseen circumstance, the bell should be rung to stop the Competitor. As soon as it is evident that the Competitor is stopping, the clock will be stopped. As soon as the course is ready again, the bell will be rung, and the clock will be restarted when the Competitor reaches the precise place where the clock was stopped.
- 2.2 If a Competitor does not stop when the bell is rung, he continues at his own risk, and the clock should not be stopped. The Ground Jury must decide whether the Competitor is to be eliminated for ignoring the order to stop or whether under the circumstances he/she should be allowed to continue. If the Competitor is not eliminated and is allowed to continue the round, the scores obtained at the obstacles preceding and following the order to stop will count whether they are good or bad.
- 2.3 If the Competitor stops voluntarily to signal to the Ground Jury that the obstacle to be jumped is wrongly built or if due to unforeseen circumstances beyond the control of the Competitor, he is prevented from continuing the round under normal circumstances the clock must be stopped immediately.
 - 2.3.1 If the dimensions are correct and the obstacle in question has been properly built or if the unforeseen circumstances are not accepted as such by the Ground Jury, the Competitor will be penalized as for stopping during the round and the time of the round will be increased by six (6) seconds.
 - 2.3.2 If the obstacle or part of the obstacle needs to be rebuilt or if the unforeseen circumstances are accepted as such by the Ground Jury, the Competitor is not penalized. The time of the interruption must be deducted and the clock stopped until the moment when the Competitor takes up the track at the point where he stopped. Any delay incurred by

the Competitor must be taken into consideration and an appropriate number of seconds deducted from the recorded time.

ARTICLE D320 DEFINITION OF FAULTS

1. Knockdown.

- 1.1 An obstacle is considered to have been knocked down when, through a mistake of the Horse or Competitor:
 - 1.1.1 The whole or any upper part of the same vertical plane of it falls, even if the part which falls is arrested in its fall by any other part of the obstacle;
 - 1.1.2 At least one of its ends no longer rests on any part of its support;
 - 1.1.3 Any arrangement intended to maintain the stability of the obstacle and forming an integral part of its support falls.
- 1.2 Penalties for knocking down an obstacle are those provided for under Article D317.
- 1.3 If any part of an obstacle, which has been knocked down is likely to impede a Competitor in jumping another obstacle, the bell must be rung and the clock stopped while this part is picked up and the way is cleared.
- 1.4 If a Competitor jumps an obstacle correctly which has been improperly rebuilt, he incurs no penalty; but if he knocks down this obstacle he will be penalized in accordance with Article D317.
- 1.5 If any obstacle of the course, which has been struck by the Horse or by the Competitor when jumping it, reaches the ground after the finishing line has been crossed, the Competitor is not penalized. But if this obstacle (single or combination) is the last on the course and if it starts to fall before the Competitor has crossed the finishing line, it counts as a fault, even if the obstacle reaches the ground after the finishing line has been crossed. However, it does not count as a fault when the obstacle reaches the ground after the Competitor has left the arena.

2. Disobediences.

- 2.1 The following are considered as disobediences and are penalized as such (Article D317):
 - 2.1.1 a refusal
 - 2.1.2 a run-out
 - 2.1.3 a resistance
 - 2.1.4 a more or less regular circle or group of circles no matter where they occur on the course or for whatever reason
- 2.2 Notwithstanding the above, the following is not considered to be a disobedience:
 - circling for up to 45 seconds after a run-out or a refusal (no matter the obstacle has to be rebuilt or not) to get into position to jump an obstacle

3. Deviation from Course.

- 3.1 It is a deviation from the course when the Competitor :
 - 3.1.1 does not follow the course as set out on the published plan
 - 3.1.2 does not cross the starting line or the finishing line between the flags in the correct direction (Article D317.3.2.5)
 - 3.1.3 omits a compulsory turning point)
 - 3.1.4 does not jump the obstacles in the order or in the direction indicated (Articles D317.3.2.8 and D317.3.2.9)
 - 3.1.5 jumps or attempts to jump an obstacle which do not form part of the course or omits an obstacle. Obstacles not included in the course should be crossed off but failure to do so by the arena party will not preclude the

elimination of a Competitor for jumping an obstacle not forming part of the course. (Article D317.3.2.6)

3.2 An uncorrected deviation from the course incurs elimination.

4. Corrected deviation from the course.

To correct a deviation from the course, the Competitor must resume the course at the point where the deviation took place.

5. Refusal.

5.1 It is a refusal when a Horse halts in front of an obstacle which it must jump whether or not the Horse knocks it down or displaces it.

5.2 Stopping in front of an obstacle without knocking it down and without moving backwards followed immediately by a standing jump is not penalized.

5.3 If the halt is prolonged, if the Horse steps back, either voluntarily or not, even a single pace, it counts as a refusal.

5.4 If a Horse slides through an obstacle, the Judge must decide immediately if it is to count as disobedience or as an obstacle knocked down. If he decides that it is a disobedience, the bell is rung at once and the Competitor must be ready to attempt the obstacle again as soon as it has been rebuilt. If the Judge decides that it is not a disobedience the bell is not rung and Competitor must continue the round. He is then penalized as for an obstacle knocked down. If the bell has been rung and the Competitor jumps other elements of the combination in his stride, it does not entail elimination or any further penalty should he knock down this part of the combination.

6. Run Out. It is a run out when the Horse escapes the control of its rider and avoids an obstacle which it has to jump.

6.1 When a Horse jumps an obstacle between two red flags or between two white flags the obstacle has not been jumped correctly. The Competitor is penalized as for a run-out and he must jump the obstacle again correctly.

6.2 It is considered to be a run-out and is penalized as such for a Horse or any part of a Horse to go past the extended line of an obstacle to be jumped, or of an element of a combination, or of the finishing line or of a compulsory turning point.

6.3 It is considered to be a run out and is penalized as such for a Horse or any part of a Horse to go past the extended line of an obstacle to be jumped, or of an element of a combination, or of the finishing line or of a compulsory turning point.

7. Resistance

7.1 It is a resistance when the Horse refuses to go forward, makes a halt for any reason, makes one or several more or less regular or complete half turns, rears or steps back for whatever reason.

7.2 It is equally a resistance when the Competitor stops his Horse at any moment and for any reason, except in the event of an incorrectly built obstacle or to indicate unforeseen circumstances to the Ground Jury. A resistance is penalized as for a refusal except in the circumstance laid out in Article D317 paragraph 3.2.3.

8. Fall.

- Bounce combinations are permitted provided that they follow these guidelines:
 - Must not be built on downhill slopes or down steps
 - An alternative route must be provided. It is recommended that only the 'B' element be black flagged.
 - Double bounce combinations are not permitted
 - Bounce combinations into water not permitted.
 - No bounce should encourage or require either or both elements to be jumped at more than a very slight angle.
 - On approaching the obstacle, the total question should be clear to the Horse to help it assess the problem. Since bounces by definition have two elements very close together, it is especially important to be able to distinguish the elements. In many cases (depending of course on siting, materials etc.) this will mean that the two elements should be of different materials and/or colour and/ or shape.
 - The profile of the elements of a bounce should be as "forgiving" as practical. In particular, the top should be rounded and/or the face should be sloping (or both). Massive logs, rounded topped "log piles" etc. are ideal.
 - No element of a bounce should involve a significant spread (ie oxer).
- Hollow (Coffin) permitted – 1 stride acceptable.
- Corner obstacles are permitted providing that construction is as follows:
 - A single back rail is used which is clearly higher than the front rail.
 - Closed in 'solid top' corners are recommended where there is limited reaction time, ie after a step or ditch or shortly after the crest of a hill.
 - Constructed in such a way that the part that should not be jumped by a Competitor cannot be jumped
- Water – Depth at entry or exit and track between recommended 10-15 cm but not to exceed 0.30m.

~~4.6 Excessive speed penalty cross country – Each commenced second under the Speed Fault Time = 1 penalty point.~~

56. INTERMEDIATE DIVISION

- ~~56.1~~ The Intermediate division is an examination of increasing technical difficulty, preparing the Competitors and Horses for Two Star Events. The dressage test may now include canter to halt transitions as well as collected trot and canter, half - pirouettes, and counter-canter.
- ~~56.2~~ The Intermediate division is open to Horses five years of age and up. A Competitor may compete in the Intermediate division from the beginning of the calendar year in which he/she reaches the age of 16.
- ~~56.3~~ The Intermediate division may be divided into Senior and Young Rider divisions.

56.4 Intermediate Horse Trials must be conducted as an EC Gold Competition.

56.5 Cross Country Directives

The Cross Country course shall be designed within the limits of the specifications and dimensions and speed defined in Annex 6 & 7. The cross country course should now combine, in more elaborate settings, the tests introduced at the preliminary level such as combinations with more than one question to be solved. Obstacles to be expected include banks, ditches or water with narrow elements, a bounce combined with other elements or corners in a combination.

Bounce combinations are permitted provided that they follow these guidelines:

- Downhill bounce combinations may be permitted
- An alternative route must be provided.
- Double bounce combinations are permitted.
- Bounce combinations into water are permitted.
- No bounce should encourage or require either or both elements to be jumped at more than a very slight angle.
- On approaching the obstacle, the total question should be clear to the Horse to help it assess the problem. Since bounces by definition have two elements very close together, it is especially important to be able to distinguish the elements. In many cases (depending of course on siting, materials etc.) this will mean that the two elements should be of different materials and/or colour and/ or shape.
- The profile of the elements of a bounce should be as "forgiving" as practical. In particular, the top should be rounded and/or the face should be sloping (or both). Massive logs, rounded topped "log piles" etc. are ideal.
- No element of a bounce should involve a significant spread (ie oxer).

67. ADVANCED DIVISION

67.1 The Advanced division is the highest national level of Horse Trials. It offers tests of significant difficulty designed to prepare Competitors and Horses for either Three or Four Star Events. The dressage test may include extensions in all three paces, half pass at the trot and canter and single flying changes.

67.2 The Advanced division is open to Horses six years of age and above. A Competitor may compete in the Advanced division from the beginning of the calendar year in which he/she reaches the age of 16.

67.3 Advanced Horse Trials must be conducted as an EC Gold Competition.

67.4 Cross Country Course Directives:

The Cross Country course shall be designed within the limits of the specifications and dimensions and speed defined in Annex 6 & 7. The cross country should clearly be a test of boldness and scope as it now combines size with technical difficulty. Combinations with multiple questions are to be expected such as bounces into water, coffins with short distances or significant slopes, and bending lines or related distances between narrow questions.

- Cross country course directives – per FEI

Grade IV: is defined as an obvious lameness with marked nodding.

Grade V: is defined as minimal weight bearing on one leg, or inability to move.

In endurance; Grades III to V are automatically excused from BC judging; Grades I and II usually are not. The "soundness" score should reflect the significance of the gait impairment as well as the degree of impairment at that moment. A horse that merely has a peculiar way of going may appear slightly "off" so it is very important for the vet to have made notes, whether mental or otherwise, about how each horse moved at the pre-ride exam.

It is not practical to list every possible means of rapping, but in general it consists of the competitor — and/or dismounted assistants, for whose behavior the competitor is responsible — either hitting the horse’s legs manually with something (no matter with what or by whom) or deliberately causing the horse to hit something itself, whether by building fences too large and/or too wide, setting false ground lines, placing trot poles or elements of a combination at a false distance, intentionally pushing the horse into a fence or otherwise making it difficult or impossible for the horse to negotiate the practice obstacle without hitting it.
